Namaratha Karanth

Data Analyst | Business Intelligence (BI) | Process Automation

Portfolio ↗ LinkedIn ↗

T: 8618466437 **E:** karanthnamaratha@gmail.com **A:** Bengaluru, India

PROFESSIONAL SUMMARY

Data Analyst with 2+ years in analytics, business intelligence, and process automation. Skilled in SQL, Python, Power BI, Power Query, and Advanced Excel, focusing on financial reporting, SQL-based analysis, and automation. Automated cash-flow reporting for 36+ commercial and non-profit clients, reducing a key processing step by up to 90%. Portfolio projects cover e-commerce conversion, experimentation, and marketplace analytics.

TECHNICAL SKILLS

- **Data Analysis:** SQL (joins, aggregations, validation), Python, Pandas, EDA, Advanced Excel, Google Sheets
- **Data Transformation:** ETL, Power Query
- **BI & Visualization:** Power BI (DAX, dashboards), Tableau, Matplotlib
- **AI & Automation:** Power Automate, n8n
- **Tools:** Jira, Google Colab

WORK EXPERIENCE

Software Engineer L1 | Digital Transformation & Innovation — Mar 2024 to Jul 2025

Consero Global Solutions — Bengaluru, India

Case Study: Cash Flow Process Automation ↗

- Automated cash-flow reporting using **Power Automate and Power Query**, reducing processing time by **up to 90%** (1–3 hours to 6–30 minutes) across varying data volumes.
- Delivered automation and financial reporting solutions for **36+ commercial and non-profit clients**, contributing to process improvements equivalent to **10+ FTE in labor savings**; onboarded **50+ stakeholders**.
- Redesigned bot processing with **reusable Power Query** templates after identifying scalability limitations, reducing execution time from **45 minutes to ~30 seconds** across **800–15,000+ row datasets**; standardized **50+ bank statement formats** into BI-ready datasets.

Data Analyst — Sep 2021 to Sep 2022

_VOIS (Vodafone) — Pune, India | Remote

- Performed **SQL-based data analysis and migration**, using joins, aggregations, and validation queries to extract, reconcile, and verify enterprise datasets.
- Executed **data cleaning, transformation, and ETL**; created Excel reports and a data migration reference guide covering validation checks, common errors, and troubleshooting procedures.

PROJECTS

- **Finance Analytics Dashboard:** Power BI - Tracks income, spending, and cash flow using Google Sheets data. View Project ↗
- **E-commerce Conversion Analysis:** GA4, BigQuery, SQL, Python - Analyzed 360K+ sessions; returning users had a 1.00 percentage-point higher conversion rate than new users. View Project ↗
- **Olist Marketplace Analysis:** Python, Pandas - Analyzed 9 linked tables; found a 1.74-star review-score gap between early/on-time and late deliveries. View Project ↗

AWARDS

- **Transformation Excellence Award:** Consero Global Solutions | 2024 — High-impact analytics automation delivery
- **Spot Award:** Consero Global Solutions | 2024 — Workflow optimization and accuracy

EDUCATION

Bachelor of Engineering (B.E.) in Information Science — Aug 2016 to Aug 2020

Sai Vidya Institute of Technology — Bengaluru, India
